PDF Create 7

The Smarter Way to Create Secure PDF Files from any PC Application

Creating 100% industry-standard PDF files from your electronic documents has never been faster or easier! PDF Create 7 enables you to create and secure PDF

files – up to three times faster than other PDF software – all with a single click. So you can share information and archive important documents safely and confidently using the PDF format.

Designed to take full advantage of Microsoft® Office 2010 and Windows® 7 capabilities, PDF Create 7 is Nuance's most productive and intuitive PDF creation software ever. It lets you combine multiple files into a single PDF, create PDF packages, batch create PDF documents, and even apply security features to your PDF files – all with one smart, yet easy-to-use application!

SAVE TIME WITH FASTER, MORE CONVENIENT PDF CREATION

With PDF Create 7 you can make universally viewable PDF files from virtually any electronic document — up to three times faster than with other PDF creation software. Enjoy the convenience of one-click PDF creation within Microsoft Office applications — Microsoft Word, Excel®, PowerPoint® and Outlook®. And fast, easy PDF creation is always just a click away in Microsoft Windows.

Use PDF Create Assistant to easily merge multiple files and formats, such as Microsoft Office, Corel® WordPerfect®, TIFF, JPG and more, into a single PDF file. The predefined and customized PDF Profiles provide you with simple one-click operations for all your PDF creation needs.

SHARE INFORMATION WITH EASE

Why send a mess of files via email when you can create and share a PDF package instead? PDF Create lets you use PDF like a folder, grouping multiple documents within a single, compact PDF file that is universally viewable and easy to email. PDF packages are the ideal way to create and share content groupings such as case files, tax information or training materials, which can be printed or searched with a single command.

PROTECT SENSITIVE CONTENT

Add passwords and permission controls during the PDF creation process to limit what other users can see in your documents. With PDF Create 7, you can limit the ability of others to view, copy, print or modify your content. So you can share documents with confidence that sensitive information is always protected.

Better PDF for Business™

Create PDF files from any PC application

Instantly create 100% industry-standard PDF files that are fully compliant with other PDF viewers for reading, sharing and printing.

Merge or combine documents with ease

PDF Create 7 provides creation settings that include “combine files into one PDF document” and “overlay files as one PDF document”. So merging or combining documents becomes a seamless part of the PDF creation process.

Secure PDF files during creation

Apply security profiles to your PDF documents as they are created. Limit other's ability to view, copy, print or modify your content.

Save time with batch creation

Why waste time opening and printing individual documents to PDF? Simply drag and drop your files into PDF Create 7 and click “Go.” You can choose to create a PDF file for each input file or combine all files into a single PDF document.

Archive your critical documents

Improved support for PDF/Archive files (the PDF/A international standard) ensures that your critical documents will display and print properly for the next century.
